

PRODUCT UPDATE

New Pricing on AG Secure Lifetime GUL

Effective September 24, 2012, American General Life Companies announces pricing changes on AG Secure Lifetime GUL® policies issued by American General Life Insurance Company and The United States Life Insurance Company in the City of New York.

Despite persistent low interest rates which continue to pose challenges for the marketplace, we continue to improve the value of our products to your clients. Premium rate increases are a prudent decision and reflect American General's commitment to effectively manage its products in the current economic environment. Because we balance the pricing environment with product features that provide protection and the ability to respond to changing conditions, guaranteed universal life products from American General Life insurance Companies remain an outstanding buy in the marketplace. Our fixed GUL products provide an unmatched package of guarantees, flexibility and cash value.

New pricing will be available on quote and illustration software on September 24, 2012. Transition rules will be as follows:

- Policies issued with an effective date of **October 24, 2012**, or after will receive the new rates
- Policies issued with an effective date prior to **October 24, 2012**, will receive the rates that were in effect at that time
- Reissue requests will not be honored
- Important: Policies backdated to an effective date prior to **October 24, 2012**, will receive the rates that were in effect for the effective date chosen. Backdated policies may require additional premiums. Backdating will be allowed to save age only; backdating requests to save rates will not be honored.

Impacts of AG Secure Lifetime GUL re-price

It is important to note that we are committed to maintaining highly competitive premiums for the ages, risk classes and pay scenarios most popular with your clients. Plus, with cash value building earlier (as early as year 10), we've significantly increased the overall value of the product.

- In the target age range for the product (45-70) most clients who pay premium in all years will see a modest change to their premium. For clients choosing an age 100 guarantee period or longer, many premium rates are effectively unchanged.
- AG Secure Lifetime GUL policies will build cash value earlier than the original version of the product.
- Limited-pay and single-pay cases will see larger relative increases
- American General Life Companies will provide, as a delivery requirement, new quotes for cases received in house before the pricing changes effective **October 24, 2012**. See the transition rules above for complete details.
