## Optional Riders

*Can be added at issue or the beginning of a Guarantee Period:*

### Required Minimum Distribution

If selected, this rider waives the Surrender Charge and MVA on any Required Minimum Distribution (RMD) from tax-qualified plans. This is the only rider that may be added at issue or at the beginning of a subsequent Guarantee Period.

*Can only be added at issue:*

### Preferred 10% Free Withdrawal

If selected, this rider waives the Surrender Charges and MVA for the first withdrawal per year starting in the second contract year. The owner may withdraw up to the greater of 10% of the account value (as of the last contract anniversary date) or the required minimum distribution (RMD). Surrender charges and MVA may apply if the withdrawal exceeds the greater of 10% or the RMD or there are multiple withdrawals in that contract year.

### Terminal Illness / Nursing Home Care Feature

If selected, this rider waives the Surrender Charge if the owner is diagnosed with a stroke, heart attack, life-threatening cancer, or any other terminal illness. This feature also waives any Surrender Charge when the annuitant requires skilled nursing care for more than 90 consecutive days. Age limits and other conditions apply.

### 72(t) Free Withdrawal

If selected, this rider waives Surrender Charge and MVA associated with withdrawals made in accordance with Internal Revenue Code Section 72(t).

### Death Benefit Feature (Required on Issue Ages 86-90)

If selected, in case of the death of the annuitant or owner, the Death Benefit will be equal to the total contract value. Any Surrender Charges and MVA will be waived.

### Accumulated Interest Withdrawal

If selected, this rider waives the Surrender Charge and MVA associated with accumulated interest withdrawals starting in the first contract year.
